

# Did you know that Accurex is a Greenheck Group company?

Behind every product manufactured and every service offered by a Greenheck Group company to the marketplace, there is a focus on delivering value — in terms of product reliability and ease of maintenance, energy efficiency, solution-based innovations, responsive and collaborative service, and a commitment to quality of life.

Accurex specializes in energy-efficient kitchen ventilation systems. They drive innovation throughout the industry and provide the best value through superior product quality and customer service. Accurex products range from kitchen hoods, exhaust fans, dedicated make-up air, packaged rooftop units, controls, variable volume systems, fire suppression, utility distribution and more. Below are just a few of the technology leading products that you can get from Accurex. [Contact your Stan Weaver Engineering Team to learn more.](#)

### **Auto Scrubber™ Self-Cleaning Hood System**

The Auto Scrubber Hood has a set of nozzles on both sides of the filters to clean the filter in place, eliminating the need for daily removal and manual cleaning. The self-cleaning system results in a drastic reduction of grease build-up on the filters, ductwork and fan.

### **Grease Trapper ESP™ Pollution Control Unit**

Launching this month, the new Grease Trapper ESP uses electrostatic precipitator cells and carbon filters to remove grease, smoke and odors from the exhaust airstream. It is UL 1978 Listed to Grease Duct Standards and meets UL 867 Standard for Electrostatic Air Cleaners making it among the safest on the market. An automated wash down cleans the entire cell eliminating the need for manual cleaning.

### **Fire Ready Residential Range Hood**

By monitoring the hood temperature, in the event of a cooking fire the Fire Ready Hood will cut off the energy supply to the appliance, signal an audible alarm, engage with auxiliary building alarm systems and once the temperature reaches a high enough level a wet chemical suppression agent will be released.
